

LED Canopy Light

Lumens Depot LED Canopy Light is engineered for superior illumination, high efficiency, and long-lasting durability—making it an ideal choice for commercial canopy applications. Delivering up to 146 lumens per watt, this fixture maximizes energy savings while providing bright, consistent lighting for environments such as gas stations, parking garages, and covered commercial spaces.

Designed with contractors in mind, it features a secure locking collar and pre-installed fasteners for quick and hassle-free installation. It supports both surface mounting and pendant mounting, offering flexibility across different project requirements.

Built for tough conditions, the fixture includes a durable aluminum housing and polycarbonate (PC) lens, along with an IP65 rating to ensure reliable protection against dust, water, and environmental wear.

Product Features

- Up to 146 lm/W
- 150 Watt
- 5700K CCT
- 0-10V Dimmable
- 120° Beam Angle
- Built-in 10KV surge protector
- Direct surface or recessed mount
- White housing
- Input Voltage 120-277VAC
- UL & DLC listed
- 5-year warranty

LED Canopy Light

Installation

Cautions:

1. Can not use the electric generator to test the LED light.
2. Please abide by related country, regional and local law and regulations when install this fixture.
3. Please turn off the power before installation or maintenance.
4. Proper earth grounding is required to ensure safety.

Notice:

1. To avoid possibility of electrical shock or fire, the installation personnel must have professional electric knowledge.
2. Please wear gloves to avoid injury before installation.
3. If any smoke or spark of the wire happened, please turn of the power immediately and notify relevant personnel.

Attention:

1. Please check if there is any damage during shipping. If so, please contact manufacturer timely.
2. Please read the installation instruction carefully to check whether all the accessories are complete. After confirmation, then install the fixture according to install-

Wiring Diagram:

Wiring Diagram:

1. Fix one side of the accessory safety rope on the back of the fixture (Figure 1).

1

Figure 1

2. Use electric drill to set fixed holes through the ceiling (Figure 2).

Figure 2

2. Fix another side of safety rope on the ceiling, then connect the wire of fixture to main supply according to local electrical connection mode, make sure good protection on the wire joint, after that, fix the fixture on the ceiling with accessory screws (Figure 3),

Installation Method:

1. Fix one side of the accessory safety rope on the back of the fixture (Figure 1).
2. Use electric drill to set fixed holes through the ceiling (Figure 2).
3. Fix another side of safety rope on the ceiling, then connect the wire of fixture to main supply according to local electrical connection mode, make sure good protection on the wire joint, after that, fix the fixture on the ceiling with accessory screws

LED Canopy Light

Notice For User

- Please turn off power before install or change assembly parts.
- The input voltage and luminaire should be matched, after connecting the power line.
Please make sure the wiring section is insulated.
- No-professionals, must not install and disassemble the luminaire.

Trouble Shootings

Troubles	Check Points
Flickering of the light	Turn off the power and turn on again in 3 minutes. If same phenomena occur, then call agencies.
Out of working	Please check the connection.
